Damon,
Thanks for the picture and your support of recreational boating. The Passaic River Boat Club members will be tying up there this summer.

Harvey, hope you had a good meeting.

I'm VERY happy to send you this fresh photo of the first public dock in Newark in quite some time.

Please help us think of ways to make sure it is put into immediate and energetic use this summer!

hope you're well,
Damon

Subject: Help needed

To:

Members and friends of the Passaic River Boat Club:

Our first meeting on 2013 will be the first Wednesday in March

March 6, 2013 at 7:45 PM at the VFW facility of Washington Avenue just north of Park Avenue.

We have agreed to have representative of the Lower Passaic River Study Area Cooperating Parties present the plans for work at mile 10.9 in Lyndhurst.

Additionally, a representative from the office of Senator Menendez also plans to attend the meeting.

Representatives from both organizations have expressed interest in the plans of PRBC to improve the Nutley Boat ramp.

As the distribution list on the PRBC web site is presently inoperative we are trying to contact all members by phone, but will probably miss many, as they are only listed on the web site. This is why we are reaching out to other interested boaters who may attend the meeting.

A large turnout of enthusiastic supporters is needed to show that our boating community is indeed serious.

Therefore, I call on those interested in the restoration of the Passaic River to a power boater friendly environment, to come to this meeting and express verbal support for the improvements.

Harvey
